

# How we bring sustainable, measurable performance improvement to organizations just like yours.\*

\*Yes, we have plenty of proof to support this. No, it's not typical consultant over-promising.

## But first, our "Elevator Speech."

Founded in Atlanta by C-level executives with strong operational experience, The Powers Company is a results-based management consulting group. Our focus is on substantially improving operating performance – profitability, productivity, customer service, and quality – in a positive, collaborative way with your team.

## Now let's talk about the keys to significant improvement.

The success we've helped companies all around the country achieve stems from four key factors:

*Working closely with front line supervisors*

*Providing easy access to our top leadership*

*Delivering guaranteed, measurable results*

*Making sure improvements are sustainable and real*

## We're not afraid to roll up our sleeves and get to work on change.

We start at the top to understand your company's goals, then get to work side-by-side with front line supervisors to establish trust and credibility. Through honest, open communication we learn about your systems, processes, and where the real challenges are. Then we collaboratively develop a "game plan" for change.

## Our engagements span a variety of industries. Here are several we're particularly experienced in:

Life Sciences

Medical Devices

Oil & Gas

Food Processing

Pharmaceuticals

Insurance

Manufacturing

## A few companies that benefitted from partnering with The Powers Company:

*Cargill*

*Mutual of Omaha*

*Actavis*

*Cigna*

*Haemonetics*

## We don't just talk about operational improvement. We guarantee it.

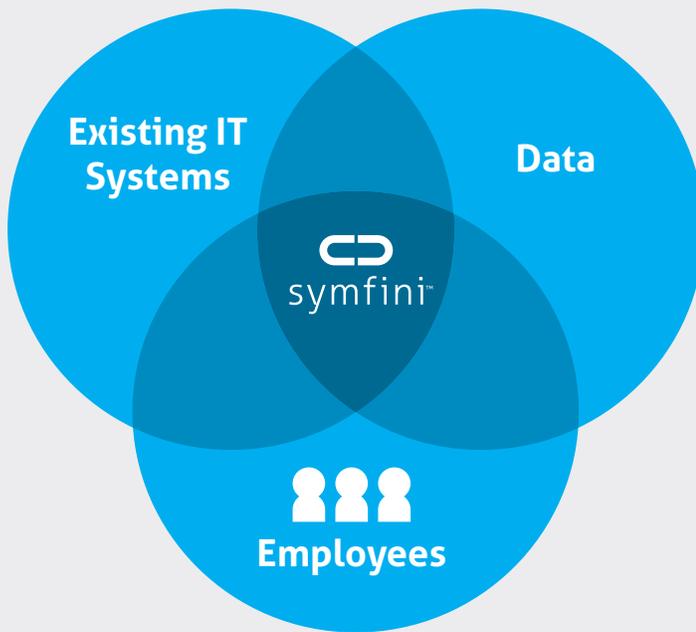

Not only do we guarantee results, we do it with success metrics using your numbers. And those results more than pay for the cost of our engagement. Better still, by fostering employee ownership and buy-in of operational changes, we achieve behavioral change coupled with sustainable cultural improvement.

Typical improvement in operating performance:

# 20%-30%

Traditional guarantee for clients:

# 3:1 ROI (or better)

### Get all your departments in perfect harmony with *symfiniti*, our Integrated Management System.

Our new bundled solution helps eliminate operational silos so software systems, people, and data can work together like a symphony. Moving productivity to peak capacity and maximizing operating performance.

And unlike many of our competitors, our Integrated Management System (IMS) fully integrates with existing IT systems, rather than requiring tons of additional capital investment.

## Enough about us. Let's talk about you.

If you've gotten this far, we're betting there are potential areas of improvement you believe can be tapped in your organization. Opportunities for positive operational, behavioral, and financial change. Well, think of us as a personal trainer for your organization. Able to get it fit faster and better than it ever could by itself. But the first step is contacting our team. Trust us, we're very good listeners.
